

# Chisley Consulting Group

*Chisley Consulting Group*

## **Charter Schools Program (CSP) Support**

Chisley Consulting Group, LLC (CCG) supports state education agencies, charter support organizations, authorizers, charter management organizations, and school developers in designing, securing, implementing, and monitoring high-quality federal Charter Schools Program (CSP) grants.

## **State Entity Grant Strategy and Application Support**

CCG supports State Entities in applying for federal CSP funds to enhance and execute their state's charter expansion strategy. Our work helps state leaders clarify the need for federal investment, define a compelling vision for charter sector growth, align grant activities to statewide priorities, and design rigorous subgrant, monitoring, and technical assistance systems.

## **State Charter School Facilities Grant Support**

Access to facilities remains one of the most significant barriers to charter school startup, replication, and expansion. CCG supports entities pursuing State Charter School Facilities Incentive Grants and related facilities-focused funding opportunities by helping clients connect facilities strategy to access, equity, school quality, and long-term sector sustainability.

## **Support for Charter Management Organizations & Developers**

CCG supports Charter Management Organizations and developers seeking CSP funds to develop, replicate or expand high-quality charter school models. Our approach helps CMOs and developers clearly define the strength of their existing model, demonstrate evidence of success, articulate demand for expansion, and develop a realistic plan for growth.

## **Model Development and Dissemination Grant Support**

CCG supports schools, networks, and state partners pursuing Model Development and Dissemination grants designed to identify, refine, document, and share high-quality charter school practices. Our work helps clients translate effective practices into clear, measurable, and replicable models that can benefit the broader charter sector.
